EuropeFides is growing fast

Trusted consultants worldwide

The association

EuropeFides is an association of professional tax consultants, certified accountants and lawyers aiming to join forces throughout Europe and worldwide in order to provide an all-round service to our clients, exceeding their expectations.

Since its creation EuropeFides has grown rapidly and has been embraced by new members through the strong need of professional consulting firms to create networks and associations to serve an increasingly international cross-border market. EuropeFides is continuously actively looking to expand its memberships to all EU countries and internationally. EuropeFides has also created strong ties with professional firms sharing the same values, outside the EU and as our correspondents assist our members in providing truly international coverage.

Entrepreneurs, family businesses and mid-sized companies are wary of going to the “big four” firms when undertaking international business. EuropeFides is a real alternative, providing a personalized service with a excellent understanding of the individual needs, priorities and expectations of every client. We offer tailored services to meet small and mid-sized companies for their cross-border activities.

Small and mid-sized enterprises require advisors with local experience and knowledge, offering a comprehensive range of services for their business activities in the European single market. EuropeFides initially focused on the EU core member states of Germany, France and UK and has now expanded to almost all EU member states and continues to expand on the major growth markets in Central Europe and further afield like China.

EuropeFides members have knowledge and expertise each within their local jurisdiction and can thus offer the best advice to clients who obtain direct access to the local partner.

EuropeFides offers you the advantage of getting advice on all issues, whether straightforward or complex, in your own language so that you fully understand the local issues.
